

**Princeton University: Environmental Health & Safety**

**RADIOISOTOPE AUTHORIZATION APPLICATION:  
Statement of Training and Experience**

Date	Application # (for EHS Use)
Applicant	

**1. Training**

Describe in detail any classes you have attended or training you have received regarding radiation properties, biological effects, radiation safety practices, and radiation measuring techniques. *Specify the institution, approximate dates, length of training. If you have only received on-the-job training and have not attended any formal classes, please indicate that.*

**2. Experience**

Describe in detail your previous experience using radioactive materials or radiation-producing equipment. *Specify isotopes and maximum quantities handled, type of radiation-producing equipment used, places, approximate dates and type of work performed.*
